CHICAGO February 25, 2014

Blue Pearl Consulting is proud to be a sponsor of the Medical Rebate Summit (MRS) on February 25-27th in Washington DC.

Along with being an Associate sponsor, Blue Pearl's CEO, Joel Freimuth, will co-hosting a roundtable discussion on February 26th at 2:15pm. He will be discussing Operational Tips for Final Rule Implementation of the Medicare Drug Rebate Program (MDRB).

The MRS conference is a strategic-level forum for manufacturers contracting with the Medicaid Drug Rebate Program (MDRP), 340B, Medicare Part D, and states.

"The implementation of the final rule brings significant challenges for federally qualified health centers. Hospitals, clinics, pharmacies are going to face significant operational challenges. The industry is already experiencing tremendous transition, and this will only exacerbate the issues. We have been proactive in meeting our clients to help them understand and provide training on the new coding as well as address administrative challenges. It's going to get very hairy as the various players in the program have to align and adapt to the new MDRB rules." said Joel Freimuth, Blue Pearl's CEO.

The MRS is being held at the Park Hyatt Washington, Washington DC. For more information, please visit [MRS Summit 2014](#).

ABOUT BLUE PEARL CONSULTING

Based in Chicago, Blue Pearl Consulting is a boutique management and operations consulting firm serving small to mid-market companies. We have two primary industry practices: Industrials and Medical Management Services. Our Industrials segment includes small manufacturing, distributors and warehousing. MMS includes medical service providers, medical practices, hospitals, home healthcare and assisted living centers. We work with clients to evaluate and implement custom solutions for increasing revenues and improving operational efficiencies that impact the bottom line.
